

# Guiding Principles

- Reduce overall airport emissions (aircraft & facilities) by 20-30%  
[Target for Overall Airport Emissions]
- Reduce noise levels by 20-30%  
[Target for Airport Noise Intensity]
- Accommodate limited growth  
[Commercial Enplanement Target of .8%]

## ASE COMMUNITY VALUES SUMMARY

- Safety in the Air and on the Ground
- Adaptable, Flexible, Future-Proof
- Environmental Responsibility
- Community Character – Reflect local culture and values
- Economic Vitality
- Warm and Welcoming
- Design Excellence
- Efficiency – an airport that works well
- Preserve High Quality of Life
- Convenient and Easy Ground Transportation
